PROFILE

Experienced software developer here, bringing four years of expertise to the table in web, mobile, and backend applications. I'm your go-to person for ReactJS, React Native and NodeJS. I've got a track record of consistently delivering top-notch projects, always aiming higher in my current role. Adaptable and collaborative, I thrive in dynamic work environments, staying ahead of industry trends to bring innovative solutions to every project. Let's make coding not just a task but a journey!

SKILLS

- **Tecnologies | Frameworks**
  JavaScript | TypeScript | React JS | Next JS | Node.js | React Native | MongoDB | PostgreSQL | HTML5
- **Management and Teamwork at Kodizm.com**
- **Project Development**
- **English B2**

PROFESSIONAL EXPERIENCE

Elsa Software
Front-End Developer   **Oct 2024 - Present**

I work as a full-time Frontend Developer at Elsa Software Company, where I utilize my frontend development skills to build innovative technologies. In this role, I contribute to creating user-friendly and responsive interfaces through a project-based approach, collaborating closely with team members to ensure seamless and high-quality product experiences with JavaScipt tecnologies.

Jotform
Front-End Developer   **June 2024 - Aug 2024**

During my internship at JotForm as a UI Developer, I gained valuable experience in creating application forms. I collaborated with a team to develop a live chat feature called JotChat and successfully integrated it into the website's application forms section. This internship was instrumental in further developing my skills in React and styled-components. Working closely with my teammates and mentor not only facilitated my growth but also provided me with the opportunity to be part of a significant project.

Derin Teknoloji
Front-End Developer   **Sep 2023 - March 2024**

I worked as a Software Developer at Derin Teknoloji, located in Bursa Technical University Technopark. During this time, I gained substantial experience by working on chatbot projects developed using platforms such as DialogFlow, Chatfuel, and Rasa. While working on these projects, I significantly enhanced my Frontend and JavaScript skills. Additionally, I contributed to the company's digital presence by improving my proficiency in web technologies and continuing to design websites for the company, further solidifying my frontend expertise.

Karegen.com
Front-End Developer   **Aug 2022 - Oct 2022**

I worked at Karegen Bilişim LTD as a Web Designer and Frontend Developer. During this period, I worked on the company's website, significantly improving my web design skills. Additionally, I created advertisements and logo designs for the website, utilizing my JavaScript skills and further enhancing the company's online presence.

EDUCATION

Bursa Technical University, Computer Science   **Sep 2019 - Sep 2024**
